Catch All Caddy

CLASS PLAN (6 hour class)

- A. Discuss features of caddy and options for customizing
- B. Prepare components of caddy (These steps can be done in any order — do something else if you need iron and it is in use.)
1. Stabilizer sleeve (demo — but they can do later if desired)
 2. Padded handle and hardware tabs
 3. Bind front, back, side pockets PLUS both ends of side strip PLUS front and back of caddy.
 4. Attach zipper to side pocket and bind top edge.
 5. Prepare bias binding.
- C. Prepare inner dividers (goal: each student will make at least divider)
1. Mark, fold, and stitch bellows in front divider.
 2. Mark, fold, and stitch bellows in back divider — point out differences.
- D. Assemble the caddy (goal: Each student will attach at least one side of caddy to side strip; demo binding plus joining ends)
1. Attach side pockets to side strip.
 2. Attach hardware tabs to front of caddy.
 3. Attach inner divider to caddy.
 4. Attach front pocket and round corners.
 5. Attach hardware tabs, divider, and pocket to back of caddy.
 6. Attach side strip to caddy front and back.
 7. Bind edges.
 8. Make and attach zipper pulls.

GOAL:

Accomplish steps A-B-C by midpoint of class.

Accomplish Step D in second half of class.
