

Bosom Buddy

SEAT BELT CUSHION

Instructor: Annie Unrein
www.ByAnnie.com
info@ByAnnie.com
435-674-9816

Class Description

Reduce discomfort and protect tender areas after surgeries or chemo port placements with this soft, comfortable cushion.

Simply place the cushion under the seat belt. Then use the Belt Wrap to attach the cushion to the seat belt and settle in for the ride.

Finished size: 14"H x 6½"W

The *Bosom Buddy* pattern is a perfect way to learn many of the basic techniques used to make ByAnnie patterns.

As you make this useful bag, you will learn how to:

- Stabilize fabric with Soft and Stable without quilting
- Mark lines for proper placement of components
- Round corners
- Make custom bias binding
- Bind raw edges on a flat project (including going around corners, joining ends, and finishing binding)

These are all skills used in many of our patterns (including our larger travel bags/backpacks), so you'll be well on your way to many other bag-making adventures once you've mastered these techniques!

Class Supply List

- Bosom Buddy* pattern
- Fabric and other supplies as listed in the pattern

ALSO BRING TO CLASS

- Sewing machine in good working order with walking foot and 1/4" foot. Don't forget the extension table for your machine.
- Rotary cutter and rulers
- Basic sewing kit, including #90/14 topstitch needles, Wonder Clips, a stiletto, pins (both the large yellow-topped quilting pins and extra-fine pins are recommended), scissors, thread, chalk marker or similar tool for marking lines, etc.

BEFORE CLASS

To make best use of class time, please complete these steps BEFORE coming to class:

- Follow the cutting instructions on page 1 of the pattern (**all of step I. Cut**) to cut all the pieces for the project.
