Class Description

This quick-to-make Face Mask has pleats on each side for expansion.

Elastic (or fabric) ties on top and bottom help keep the mask snug against the face and adjust for comfortable wearing.

A flexible wire inserted at the top of the mask allows the wearer to shape the mask to fit more closely around the nose.

The pattern includes instructions for three sizes of masks.

Class Supply List

- Face Mask** pattern
- Fabric and other supplies as listed in the pattern

ALSO BRING TO CLASS

- Sewing machine in good working order with 1/4" foot. Don't forget the extension table for your machine.
- Rotary cutter and rulers
- Basic sewing kit, including #90/14 topstitch needles, Wonder Clips, a stiletto, pins (the large yellow-topped quilting pins work best), scissors, thread, etc.

BEFORE CLASS

To make best use of class time, please complete these steps BEFORE coming to class:

- Follow the cutting instructions on page 1 of the pattern (**all of step I. CUT**) to cut all the pieces for the size mask that you want to make.
